

## City of American Canyon – Certified Backflow Prevention Testers

The City of American Canyon provides water service to commercial customers within our city limits, and in the unincorporated area north of our city, including the Airport Industrial Area. Backflow testing companies doing business within our city limits must have a valid City of American Canyon Business License to submit testing results. All testers must have current Backflow Testing Certificates and current Test Kit Accuracy Certification on file with the City of American Canyon Backflow Administrator. \*

Testers authorized to perform services ***within the City limits*** at this time:

*\*The City of American Canyon does not endorse the listed entities nor guarantee the performance of the companies doing the work and this list is provided for convenience only. The charge for backflow testing varies from tester to tester, and all charges for testing are contracted between the business and testing company. \*\*City of American Canyon does not provide recycled/reclaimed water north of Green Island Rd. Testing performed on backflow devices on recycled water connections in the **Airport Industrial Area** should be submitted to Napa Sanitation District.*
